## ABOUT LONGI MIRCH

Longi mirch powder is made from hottest chillies from around the world and is unadulterated. It is easily digestible and makes a great ingredient to food items, namkeens, papads and other edible items. It is chosen as it keeps these food items fresh for longer time. ASD Rajasthani Foods renders colourless and hottest chilli powder so that you can relish your food.

# INDIAN FOOD IS IRRESISTIBLE

OWING TO ITS AMAZINGLY FLAVOURED TRADITIONAL SPICES

## GREAT VARIETY & RICH INGREDIENTS

ASD RAJASTHANI Foods is considered as one of the leading supplier of spices in India. We are known for our quality products with consistent customer satisfaction. ASD Spices has several years experience in the food processing industry. **Our storage, cleaning and packaging capabilities are focused towards delivering products that maximize your profitability and ensure taste.**

### WHY CHOOSE US.

We envision to provide the best flavours to enhance the taste buds of our customers, therefore we have introduced cold processing method for manufacturing chilli powder. We use modern appliances to extract unwanted particles to deliver high-quality chilli powder. ASD Rajasthani Foods manufactures high-end spices including chilli powder, rock salt powder, turmeric powder, bikaneri bhujia, bikaneri papad, yellow chilli powder, bikaner rasgulla, and black pepper.

### ABOUT PACKING

Longi mirch enters the stage of packaging only after getting clearance from the quality control department. The packaging is done with high-quality packing material especially designed for packing the hottest chillies. The packaging material is made with the view to keep the color, aroma, flavour and quality of the chilli powder intact while transporting it across boundaries.

### PROCESSING

We promise to deliver the desired quality and we have met all standards set by the Food Safety and Standards Authority of India (FSSAI). Cold processing grinding technology supports a multi-stage process to deliver high-end chilli powder. It protects ingredients from damage and makes sure that no dust, sand and dirt particles have been dissipated.
